

Muhammad Ahmad Raza

Python Developer

I graduated from GC University Faisalabad and have accumulated 2 years of experience at SpiderHunts Private Ltd. During this time, I was actively involved in web scraping, web development, and the seamless integration of third-party APIs into our projects. Notable examples of these APIs include DocuSign for efficient e-signature functionalities and ChatGPT to enhance interactive conversational features within our applications.

RELEVANT COURSES

- Web Development
- Machine Learning
- Deep Learning
- Python programming
- Data Structures
- Database Management System
- PHP programming
- Web scraping

PROFESSIONAL SKILLS

- Advanced – Web Scraping
- BeautifulSoup, Scrapy,
- Selenium, XML
- Restful API, FastAPI, GitHub
- Familiar – HTML/CSS, JavaScript/SQL (PostgreSQL, MySQL, MongoDB),
- Bootstrap, JQuery, Docker
- Django, Django REST API, Flask, FastAPI,
- Rasa chatbot, React

EDUCATIONAL BACKGROUND

Government College University of Faisalabad (GPA: 3.4)
Computer Science | 2020 – 2024

WORK EXPERIENCE

Web Developer and AI and scraping
Nexskill Institute | May – June, 2022

- Worked across the full-stack of Web development
- Worked in the python django to the Six Month and six month in the AI machine learning from the institute of Covit

PROJECT

- LinkedIn scraping project
- Amazon scraping
- autohifi.no, audiocom.no, iceaudio.no
- extend chat web application
- indeed scraping
- AWS S3 API integration, EC2 cloud integration
- DigitalOcean
- DocuSign integration
- FNC Website scraping
- ReviewpayRole mobile, Vitalstate RESTful API Django
